## "Opening" Spring Millinery

Tomorrow, Tuesday and Wednesday, March 12, 13 and 14

We invite all followers of fashion and lovers of the beautiful to the formal opening of Spring Millinery, which occurs tomorrow, Tuesday, and Wednesday, March 12, 13, and 14. The prosaic, though handsome Millinery section on the second floor has been converted into bowers of blooming flowers as a fitting background to the new hats, which get a first showing tomorrow.

Our greatest efforts have been put into this Spring Opening—our eleventh annual display. As is to be expected of this fastest growing millinery department, the present season's showing is the largest and most comprehensive, as well as the most beautiful, we've ever asked Washington women to view. The leading milliners of New York and Paris are represented by some of the most exquisite hats imaginable. Our own skilled milliners have reproduced and adapted many of the imported novelties, as well as created hundreds of beautiful hats, certain to add new luster and greater fame to our reputation for selling really fine millinery at reasonable prices.

There has never been a season that designers and milliners have been able to create so many novel shapes and effects as this spring. The French styles are severe in the extreme, and only after modifications are they becoming to the

average American women. We have labored hard to create styles that follow the French lines, and at the same time meet with the style requirements of Washington women. The hats shown during the next three days are the correct hats for

spring and summer. They are in a thousand pretty variations—new, departing from the true art lines that have made this season's hats the prettiest in many seasons. Among the most effective styles are the new small hats, of which one

of the best shapes is the Sailor. Shown in many ways, with the proper tilt and correct banding. Another chic walking hat is the Peter Pan Turban, which we have in a great variety of effects. Large hats for dress and evening wear are in evidence. These

are shown in Leghorns, Neapolitans, Kemp, and Tuscan Braids, in both soft and stiff effects. No preference is shown in the materials used—flowers, wings, feathers, quills, and egrettes being used, in combinations with malines, laces, and ribbons.

## \$6.00 Trimmed Sailors, \$3.98 For the Opening--\$8.00 Hats for \$5.00

Another very unusual offering. The hat is the latest style small Sailor, and is made of best quality satin braids. Trimmed with crushed band and side bow of mirrored velvet, and an imported feather effect, held by a fine buckle and bow of velvet on bandeau.

Colors include old rose, Alice blue, gray, black, black-and-white, light blue, green, brown and navy blue.

This hat is extremely smart looking, and cannot be duplicated in Washington for less than six dollars. Opening sale price, \$3.98.

We will have on sale tomorrow a lot of two hundred Hats that are actually worth eight dollars, and cannot be matched for a penny less. No two alike. The assortment embraces just that many new and charming styles for spring wear, in all the leading colors. The majority of these hats are made of imported braids, and for this reason no duplicates of them can be had. They are effectively trimmed with wings, quills, flowers, and other desirable materials.

They are especially adapted for early spring wear—and every woman who wants to save money and at the same time secure a stylish hat should be here tomorrow for one of these.
